WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.	_
PCT/IIS04/19129	

Box No. 1 Basis of this opinion	
1. With regard to the language, this opinion has been established on the basis of the international application in the language	in which
it was fried, unless otherwise indicated under this item.	
This opinion has been established on the basis of a translation from the original language into the following language which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1)	b)).
With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary claimed invention, this opinion has been established on the basis of:	to the
a. type of material	
a sequence listing	
table(s) related to the sequence listing	
b. format of material	
in written format	
in computer readable form	
c. time of filing/furnishing	
contained in international application as filed.	
filed together with the international application in computer readable form.	
furnished subsequently to this Authority for the purposes of search.	
•	
In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has filed or furnished, the required statements that the information in the subsequent or additional copies is identical to it the application as filed or does not go beyond the application as filed, as appropriate, were furnished.	been hat in

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/US04/19129

Box No. VIII	Certain observations on	the international application

The following observations on the clarity of the claims, description, and drawings or on the questions whether the claims are fully supported by the description, are made:

Claims 11, 12, 18, 19, and 21 are objected to under PCT Rule 66.2(a)(v) as lacking clarity under PCT Article 6 because the claims are indefinite for the following reason(s): With regard to claim 11, it is unclear what provides basis for the phrase cach segment? with regard to claim 12, it is unclear what Applicant intends to claim, as the claim is merely a series of unrelated phrases. With regard to claim 18, it is unclear what further structural limitation Applicant provides, as the claim implies a process is occurring. Claim 19 is unclear. With regard to claim 21, the phrase "at conforming to" is unclear. With regard to claim 21, the phrase "at conforming to" is unclear.

Form PCT/ISA/237 (Box No. VIII) (January 2004)

NOTES TO FORM PCT/ISA/220 (continued)

The letter must indicate the differences between the claims as filed and the claims as amended. It must, in particular, indicate, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether

- (i) the claim is unchanged;
- (ii) the claim is cancelled;
- (iii) the claim is new:
- (iv) the claim replaces one or more claims as filed;
- (v) the claim is the result of the division of a claim as filed.

The following examples illustrate the manner in which amendments must be explained in the accompanying letter:

- [Where originally there were 48 claims and after amendment of some claims there are 51]:
 "Claims 1 to 29, 31, 32, 34, 35, 37 to 48 replaced by amended claims bearing the same numbers; claims 30, 33 and 36 unchanged: new claims 40 to 51 added."
- [Where originally there were 15 claims and after amendment of all claims there are 11]: "Claims 1 to 15 replaced by amended claims 1 to 11."
- [Where originally there were 14 claims and the amendments consist in cancelling some claims and in adding new claims]:
 "Claims 1 to 6 and 14 unchanged; claims 7 to 13 cancelled; new claims 15, 16 and 17 added." or
- "Claims 7 to 13 cancelled; new claims 15, 16 and 17 added; all other claims unchanged
- Where various kinds of amendments are made):
 "Claims 1-10 unbanged; claims 11 to 13, 18 and 19 cancelled; claims 14, 15 and 16 replaced by amended claim 14; claim 17 subdivided into amended claims 15, 16 and 17; new claims 20 and 21 added."
 "Statement under Article 10(1)" (Rulu 46.4).

The amendments may be accompanied by a statement explaining the amendments and indicating any impact that such amendments might have on the description and the drawings (which cannot be amended under Article 19(1)).

The statement will be published with the international application and the amended claims.

It must be in the language in which the international application is to be published.

It must be brief, not exceeding 500 words if in English or if translated into English.

It should not be confused with and does not replace the letter indicating the differences between the claims as filed and as amended. It must be filed on a separate sheet and must be identified as such by a heading, preferably by using the words "Statement under Article 19(1)."

It may not contain any disparaging comments on the international search report or the relevance of citations contained in that report. Reference to citations, relevant to a given claim, contained in the international search report may be made only in connection with an amendment of that claim.

Consequence if a demand for international preliminary examination has already been filed

If, at the time of fitting any amendments and any accompanying statement, under Article 19, a demand for international prelimitary examination has already been submitted, the applicant must preferreby, at the time of fitting the amendments (and any statement) with the International Burcau, also fife with the International Preliminary Examining Authority or copy of such amendments (and of any statement) and, where required, a translation of such amendments for the procedure before that Authority (see Rules 55.3(a) and 62.2, first sensence). For intheir information, see the Notes to the demand form IFCCTIPEAMOI).

Consequence with regard to translation of the international application for entry into the national phase

The applicant's attention is drawn to the fact that, upon entry into the national phase, a translation of the claims as amended under Article 19 may have to be furnished to the designated/elected Offices, instead of, or in addition to, the translation of the claims as filed.

For further details on the requirements of each designated/elected Office, see the PCT Applicant's Guide, Volume II.
